

# Finally! An Online Store for Truck and Tractor Pullers @ PerformancePros.com

*PERFORMANCE PROS IS A 2009 CONTRIBUTING POINTS FUND SPONSOR OF THE NTPA*

Performance Pros has more than 1,000,000 part numbers available for your performance needs. Now, you can shop for many of these items on our new Online SuperStore. While we don't have everything online; we will be continually adding new products to the Online Store. If you don't find what you're looking for online, we'll have what you need at one of our warehouses, just give us a call and we'll fix you up!

Online you'll also find all kinds of help and information to guide you as you search for those performance parts that will put you in the winner circle.

Find Parts, Charts, Instruction Sheets, Wiring Diagrams, and more on our Online Store! Shop safely and securely utilizing our Secure Server & Encryption Technology!

Order using a credit card, mail a check, call or fax in your order!  
Check it out Today! @ PerformancePros.com and click the Shop On Line Link!

## Where the Pros go for Performance

At Performance Pros, we have nearly 1,000,000 part numbers available for any of your competition or street needs. Most items are in stock for immediate shipment.

Performance Pros is also an innovator.

We have introduced many specialized Parts to the Performance Industry, including our Aluminum Hub, Rotor, and Brake to Retro-Fit your DANA 60. This kit will save you 94 pounds overall and 56 pounds of rotating weight. This kit also allows a 15 Inch wheel to be used with no grinding necessary. A Kit is also available for Rockwell and Military configurations. These kits were developed for sled pulling, but are applicable to any need where weight and performance are important factors to that winning edge.

Performance Pros has an Aluminum Bellhousing that meets SFI Specifications 6.1 & 6.3 that is 52% lighter. We carry billet axles (gun drilling available) and a spool for the Dana 60, Dana S135, the F106, H170, H172, and SQHD Rockwell that is up to 20 pounds lighter and much stronger than a stock carrier and spider gears. Performance Pros has an aluminum hub kit for the F106 Rockwell that will adapt a typical DANA 60 wheel on an 8X6.5" bolt circle.
